FORWARD-LOOKING STATEMENTS
DISCLAIMER

Certain written and oral statements contained in this presentation and discussion are forward-looking within the meaning of certain securities laws and reflect the views of Algonquin Power & Utilities Corp. (the “Company”) with respect to future events, based upon assumptions relating to, among others, the performance of the Company's assets and the business, financial and regulatory climates in which it operates. These forward looking statements include, among others, statements with respect to the expected performance of the Company, its future plans and its dividends to shareholders.

Since forward-looking statements relate to future events and conditions, by their very nature they require us to make assumptions and involve inherent risks and uncertainties. We caution that although we believe our assumptions are reasonable in the circumstances, these risks and uncertainties give rise to the possibility that our actual results may differ materially from the expectations set out in the forward-looking statements. Material risk factors include those presented in the Company's annual financial results, the annual information form and most recent quarterly commentary. Given these risks, undue reliance should not be placed on forward-looking statements, which apply only as of their dates. Except as required by law, the Company does not intend to update or revise any forward-looking statements, whether as a result of new information, future developments or otherwise.

NON-GAAP FINANCIAL MEASURES
DISCLAIMER

The terms “adjusted net earnings”, “adjusted earnings before interest, taxes, depreciation and amortization” (“Adjusted EBITDA”), “adjusted funds from operations”, “per share cash provided by adjusted funds from operations”, “per share cash provided by operating activities”, "net energy sales", and "net utility sales", (together the “Financial Measures”) may be used in this presentation. The Financial Measures are not recognized measures under GAAP. There is no standardized measure of the Financial Measures, consequently APUC’s method of calculating these measures may differ from methods used by other companies and therefore may not be comparable to similar measures presented by other companies. A calculation and analysis of the Financial Measures can be found in APUC’s most recent Management Commentary. Per share cash provided by operating activities is not a substitute measure of performance for earnings per share. Amounts represented by per share cash provided by operating activities do not represent amounts available for distribution to shareholders and should be considered in light of various charges and claims against APUC.
## Overview – Algonquin Power & Utilities Corp.

### Clean Electric Power

- Renewable power – high quality assets support earnings growth
  - Since 1988
  - Diversified energy markets
  - 25% of 2017e EBITDA
  - 30% Canada / 70% U.S.
  - C$3.1 B in net power assets
    - Net generation capacity of 1.5 GW
    - Long term contracted off-take
  - C$2.0 B investment potential over the next five years

### Regulated Electric, Gas and Water Utility

- North American generation, transmission and distribution utility – predictable earnings growth
  - Since 2001
  - Diversified state regulation
  - 75% of 2017e EBITDA
  - 100% U.S.-based
  - US$7.1 B in utility assets
  - US$3.0 B investment potential over the next five years

#### Distribution
  - Electricity, natural gas and water distribution
  - 756,000 customers
    - 263,000 electric
    - 335,000 gas
    - 158,000 water

#### Generation
  - Net generation capacity over 1.4 GW
  - Focus on growing percentage of renewable energy in fleet

#### Transmission
  - 1,200 miles of electric transmission
  - 100 miles of natural gas transmission

---

1. Transactions related to the Atlantica Yield acquisition and AAGES JV are expected to close in Q1, 2018.
Strategic Objective
To be a top quartile North American integrated utility as measured by:

Safety  ♦  Customer Experience  ♦  Employee Engagement

Financial Performance  ♦  Commitment to Renewable Energy

Financial Goals

Avenues for Growth

- Regulated Utilities
- Acquisitions
- Canada / United States
- International Markets
- Contracted Power Generation
- Organic Growth
- Diversified Modalities
- Local Expansion

Numerous strategies available to ensure predictable, sustainable growth over the short, medium and long-term
North American Focus with Geographic Diversity

Liberty Utilities
Liberty Power
Projects in Development
Empire Service Territories
St Lawrence Gas (pending)
REGULATED UTILITY PORTFOLIO

- Stable, predictable earnings, strong cash flow, and return protection
- Diverse portfolio of natural gas, electricity and water distribution utility systems
- Excellent track record of growth
  - Investment in our existing systems
  - Accretive acquisitions in supportive regulatory environments
- Regulated ROEs 9% - 10%
  - Multiple rate cases filed annually smooths out revenue growth profile

Growth through diversified regulated utility acquisitions, organic investments and rate cases
Liberty Utilities - US$3 B Investment Potential

Renewable power generation provides attractive, growing returns.

RENEWABLE ENERGY PORTFOLIO

- Attractive returns and strong cash flow from renewable and clean energy generation sourced from water, wind, solar, and natural gas.
- 88% of generation under long term power purchase contracts with inflation escalators.
- Diverse generating fleet by both modality and geography provides stable production profile.
- Targeting unlevered after-tax IRRs of greater than 8%.

39 renewable & clean energy facilities
6 provinces and 8 states
1,500 MW net installed capacity
16 years average PPA length\(^1\)

Renewable power generation provides attractive, growing returns.

1. Production-weighted average as at Q2, 2017.
360 MW recently completed:

- 200 MW Odell Wind Project in Minnesota
  - 20 year PPA with Xcel Energy subsidiary / COD in July 2016
- 10 MW Bakersfield II Solar Facility Expansion in California
  - 20 year PPA with California electric utility / COD in January 2017
- 150 MW Deerfield Wind Project in Michigan
  - 20 year PPA with Michigan electric utility / COD in February 2017

150 MW under construction - C$465 - 520 M capital cost

- 75 MW Great Bay Solar Project in Maryland
  - 10 year PPA with U.S. Government / COD expected in 2017
- 75 MW Amherst Island Wind Project in Ontario
  - 20 year PPA with OPA / COD expected in 2018

211 MW under development - C$400 - 450 M capital cost

- 24 MW Val-Éo Wind Project in Quebec
  - 20 year PPA with Hydro Quebec, community partnership/COD expected in 2018
- 177 MW Chaplin-Blue Hill Wind Project in Saskatchewan
  - 25 year PPA with SaskPower / COD expected in 2019/2020
- 10 MW Turquoise Solar Project in Nevada
  - To be included in CalPeco rate base / COD expected in 2018
The Atlantica Investment and AAGES Joint Venture are key first steps in APUC’s measured expansion into global infrastructure development.

**Abengoa**
- Key step in Abengoa’s back-to-basics strategy - EPC and O&M services provider
- Algonquin to be the preferred equity investor for additional opportunities
- Maximization of proceeds on sale of Atlantica Yield

**Algonquin Power & Utilities Corp.**
- Provides a measured approach for international development
- Benefits of Abengoa’s international presence and existing project pipeline
- Atlantica investment is immediately accretive on key financial (cash flows) and non-financial metrics

**Abengoa - Algonquin Global Energy Solutions**

**Atlantica Yield**
- Strengthens growth profile through accelerated project drop-downs and new ROFO agreements
- Algonquin as a important new sponsor, adding to future growth and capital

1. Transactions related to the Atlantica Yield acquisition and AAGES JV are expected to close in Q1, 2018.
**AA Global Energy Solutions ("AAGES") joint venture**

- **Global development platform** for clean energy and water infrastructure
- **Measured approach** to international development for APUC
- **Provides strategic entry point** into new international markets as well as new modalities (energy storage, desalination, concentrating solar)
- **Strongly aligned** with APUC’s criteria for viable global investment
- **Near-term construction opportunities** with three assets:
  - A3T (A3T (co-gen))
  - ATN3 (transmission)
  - San Antonio Water (water pipeline)

---

**Strategic investment in Atlantica Yield**

- **Acquired** US $608M 25% interest in Atlantica from Abengoa
- **Attractively-priced** portfolio of contracted, international operating assets
- **Dividend growth** expected with clearing of sponsor uncertainty
- **Near-term investment** in growth opportunities – use of ‘trapped’ cash
- **Future potential** drop down of AAGES projects through ROFO

---

1. Transactions related to the Atlantica Yield acquisition and AAGES JV are expected to close in Q1, 2018.
Fleet Greening, Grid Improvements Offer Capital Investment Opportunities

- **Dramatic decline in cost of renewables spurring growth**
  - Favorable economics for renewable power create optimal conditions for renewal of generating fleet while maintaining customer rates
  - $75 million investment in safe harbor turbines enables $1.5 B in wind development

- **Leverage APUC skillset**
  - Experienced renewable energy development team supports “fleet greening” efforts within Empire

- **Comprehensive regulatory proposal under development – “Empire 2.0”:**
  - Updated Resource Plan filed with the Missouri PSC in late October
  - Proposal to include up to 800 MW of new renewables, US$1.1 B - $1.4 B of rate base investment

---

**Coal** (variable cost):
US $28 – 35 per MWh

**Wind** (all-in cost\(^1\)):
US $18 – 28 per MWh

---

*Favorable all-in cost of renewables against variable cost of coal accelerating the shift away from coal*

---

1. Located in Mid-west U.S., safe harbor for 100% PTCs.
Evolution of Our Results Up to 2021

1. Charts include the pending Atlantica Yield acquisition and AAGES JV, which are expected to close in Q1, 2018.
Long-Term Growth Supports Sustainable Dividend

US$0.4659 / C$0.5919
Annual common share dividend

Robust growth model
- Earnings/cash flow growth supports targeted dividend increase of 10% per year
- AQN is part of the S&P/TSX Canadian Dividend Aristocrats Index
- AQN’s listing on NYSE improves access to US capital markets

Diversified, conservative business platform
- Long term investment grade BBB fixed rate debt financing
- Large proportion of earnings from regulated utility operations
- Reduced commodity price exposure through inflation indexed long term PPAs

1. Dividend declared in USD. CAD equivalent based on exchange rate on the day before the declaration date of the Q2 2017 dividend.
2. Does not include the pending Atlantica Yield or AAGES transactions, which are expected to close in Q1, 2018.
Robust Capital Program

Sources of Capital¹

- C$6 B pipeline¹ of investment opportunities for execution within 2017 - 2021 timeframe
- High degree of financial flexibility to execute on growth plans
  - Relatively low payout ratio provides significant internally generated cash flows
  - DRIP program and tax equity provide additional sources of capital

Uses of Capital¹

- Liberty Utilities - Distribution
- Liberty Utilities - Generation
- Liberty Power

¹ Charts and investment amount do not include the pending Atlantica Yield acquisition and AAGES JV, which are expected to close in Q1, 2018.
Financial Performance Reflects Growth Initiatives

Delivered Solid Results to date in 2017

- Empire acquisition: Successful completion and integration
  - 218,000 new water, gas, and electric utility customers
  - 1,400 MW of regulated electrical power generation
- St. Lawrence Gas acquisition: Announced Aug. 31 (16,000 customers)
- Commissioned 210 MW of net generation capacity (LP – 160 MW, LU – 50 MW)
- Completed rate cases totaling ~US$14 M

Resource fluctuation managed through diversification

- 10-year avg. production of >98% of forecast production targets
- Statistically predictable natural resources drive electricity production
- Production targets are based on long-term average wind, hydrology, and solar resources

Other risk exposures actively managed to ensure stability of cash flows over the long term

- Minimal counterparty risk
- Minimal refinancing risk
- Minimal floating rate debt risk
- Minimal commodity risk

1. Proportions set as of June 30, 2017
Algonquin Power & Utilities Corp.: Why Invest?

- **Earnings & Cash Flows**
  - Long-term contracted cash flows and regulated utility earnings
  - Significant forecast growth from commercially secured pipeline

- **Sustainable Growth in Dividend**
  - Annual dividend increases for seven consecutive years
  - Targeting 10% increase annually

- **Robust Development Program**
  - Line-of-sight on ~C$6 B\(^1\) of growth over next five years
  - New investment potential through Atlantica/AAGES of ~$1.0 B\(^2\)
  - Maintaining business and technology mix

- **Enterprise-wide Focus on Risk Management**
  - Investment grade capital structure
  - Dedicated Enterprise Risk Management and Internal Audit functions

- **Management Team**
  - Over 25 years of experience in power generation development and utility expertise
  - Entrepreneurial roots

---

2. Pending transaction close – expected in Q1 2018.

Utility 2.0 – Significant Opportunity Set

APUC is capitalizing on disruptive changes under way within the power and utilities businesses

**Disruptor #1**
Declining **renewable energy** costs facilitate replacement of conventional energy sources

**Disruptor #2**
**Energy storage** enables new options for residential and commercial customers

**Disruptor #3**
Technology, **Internet of Things** reducing transactional barriers between customers

**Opportunities for APUC**
- Liberty Utilities: Fleet greening, Distributed Energy Resources
- Liberty Power: Active involvement in Renewables build-out
- Safe Harbor turbines to capitalize on low cost Renewables
- LNG/Nat Gas perfect bridge fuel for intermittent Renewables

- Development skillset leveraged to offer storage solutions
- Community energy, deeper penetration of renewables
- Micro-grid partnership with Squaw Valley & global storage leader

- SAP implementation to support full suite of grid/customer solutions
- Expanding set of regulator-supported energy efficiency initiatives
- $270 M in Smart Grid / AMI opportunities, more to come
