Q3 Corporate Update
November 2018

All dollar amounts presented in USD, unless otherwise noted.
FORWARD-LOOKING STATEMENTS DISCLAIMER

Forward-looking Statements and Forward-Looking Information
This presentation contains statements that constitute “forward-looking statements” or “forward-looking information” within the meaning of applicable securities legislation (collectively, “forward-looking information”) with respect to Algonquin Power & Utilities Corp. (“Algonquin” or “APUC” or the “Company”). The words “anticipates”, “believes”, “budget”, “could”, “estimates”, “expects”, “forecasts”, “intends”, “may”, “might”, “plans”, “projects”, “schedule”, “should”, “will”, “would” and similar expressions are often intended to identify forward-looking information, although not all forward-looking information contains these identifying words. The forecasts and projections that make up the forward-looking information contained herein are based on certain factors or assumptions, many of which are outside of the Company’s control.

The forward-looking information contained herein is subject to risks, uncertainties and other factors that could cause actual results to differ materially from historical results or anticipated results anticipated by the forward-looking information. Factors which could cause results or events to differ materially from current expectations include, but are not limited to: changes in general economic, credit, social and market conditions; changes in customer energy usage patterns and demand; global climate change; the incurring of environmental liabilities; natural disasters and other catastrophic events; the failure of information technology infrastructure and cybersecurity; the loss of key personnel and/or labor disruptions; seasonal fluctuations and variability in weather conditions and natural resource availability; reductions in demand for electricity, gas and water due to developments in technology; reliance on transmission systems owned and operated by third parties; issues arising with respect to land use rights and access to the Company’s facilities; critical equipment breakdown or failure; terrorist attacks; fluctuations in commodity prices; capital expenditures; reliance on subsidiaries; the incurring of an uninsured loss; a credit rating downgrade; an increase in financing costs or limits on access to credit and capital markets; sustained increases in interest rates; currency exchange rate fluctuations; restricted financial flexibility due to covenants in existing credit agreements; an inability to refinance maturing debt on commercially reasonable terms; disputes with taxation authorities or changes to applicable tax laws; requirement for greater than expected contributions to post-employment benefit plans; default by a counterparty; inaccurate assumptions, judgments and/or estimates with respect to asset retirement obligations; failure to maintain required regulatory authorizations; changes to health and safety laws, regulations or permit requirements; failure to comply with and/or changes to environmental laws, regulations and other standards; compliance with new foreign laws or regulations; failure to identify attractive acquisition or development candidates necessary to pursue the Company’s growth strategy; delays and cost overruns in the design and construction of projects; loss of key customers; failure to realize the anticipated benefits of acquisitions or joint ventures; Atlantica or the Company’s joint venture with Abengoa acting in a manner contrary to the Company’s best interests; facilities being condemned or otherwise taken by governmental entities; increased external stakeholder activism adverse to the Company’s interests; fluctuations in the price and liquidity of the Company’s common shares; and other factors set forth in the company’s annual information form and most recent quarterly commentary. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking information, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended.

Forward-looking information contained herein is made as of the date of this presentation and based on the plans, beliefs, estimates, projections, expectations, opinions and assumptions of management on the date hereof. There can be no assurance that forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such forward-looking information. Accordingly, you should not place undue reliance on forward-looking information. While subsequent events and developments may cause the Company’s views to change, the Company disclaims any obligation to update any forward-looking information or to explain any material difference between subsequent actual events and such forward-looking information, except to the extent required by law. All forward-looking information contained herein is qualified by these cautionary statements.

NON-GAAP FINANCIAL MEASURES DISCLAIMER
The term “adjusted earnings before interest, taxes, depreciation and amortization” (“Adjusted EBITDA”), is used in this presentation. Adjusted EBITDA is not a recognized measure under GAAP. There is no standardized measure of Adjusted EBITDA, consequently APUC’s method of calculating Adjusted EBITDA may differ from methods used by other companies and therefore may not be comparable to similar measures presented by other companies. A calculation and analysis of Adjusted EBITDA can be found in APUC’s most recent Management Discussion and Analysis, and a reconciliation of Adjusted EBITDA to net earnings is included in the Appendix to this presentation.

Overview of Algonquin Power & Utilities Corp.

**Liberty Utilities**
- $5.9 B in regulated utility assets
- 74% of 2017 Adjusted EBITDA

**Liberty Power**
- $3.0 B in power assets
- 26% of 2017 Adjusted EBITDA

**Diversified Utility Mix (Q3 2018)**
- 766,000 connections
  - Natural Gas: 44%
  - Electricity: 35%
  - Water: 21%

**Renewables Generation Mix² (Q3 2018)**
- 1,390 MW
  - Wind: 83%
  - Hydro: 9%
  - Solar: 8%

- Diversified utility operations
  - 39 utilities
  - 13 state regulatory commissions¹

- Regulated cost of service business

- Diversified power operations
  - 39 facilities
  - 6 provinces / 8 states

- Long term contracted portfolio

**Strong and stable operations from an asset portfolio that is diversified regionally and by asset type**

1. Includes pending St. Lawrence Gas acquisition.
2. Excludes Thermal generating capacity.
Strong, Diversified Utility Business

Under the Liberty Utilities brand, APUC delivers water, electricity, and gas utility services to 766,000 connections across the United States.

Company Highlights

Diverse, Multi-Modal Operating Base
- Stable and predictable cash flows from low-risk regulated electricity, natural gas, water and wastewater distribution utilities
- Track record of seamlessly integrating accretive acquisitions since 2001

High-quality Utility Operations
- Well-maintained asset portfolio and diversified operating platform across 13 states

Regulated Business Structurally Separate
- Legally, structurally and financially separate from APUC and Liberty Power’s unregulated power generation business

Service Territories

Benefits of Regulatory Diversity
- Complete multiple rate reviews each year, resulting in steady incremental revenue changes due to rates
- Focus on building strong regulatory relationships to create supportive regulatory environments

1. Includes pending St. Lawrence Gas Acquisition.
### Constructive Regulatory Environments

*Mechanisms enhance Liberty Utilities’ ability to earn its authorized ROE*
Focus on Achieving Authorized Returns

Optimal ROE Strategy

Achieving authorized ROEs
- Capital optimization and managing operating costs
- Taking advantage of regulatory mechanisms
- In 2017, Liberty Utilities achieved its authorized ROE

Maintaining competitive customer rates
- OpEx to CapEx strategy minimizes impact
- Best practices benefit all utility operations and customers
- Strive to maintain competitive rates vs. adjacent utilities

Minimizing Impacts to our Customers

Liberty Utilities strives to achieve authorized ROEs while maintaining competitive customer rates
Leading the Transition to Renewables

Commitment to Sustainability

- Liberty Utilities is committed to corporate sustainability
- Corporate initiatives include:
  - Transitioning truck fleet to natural gas and electric vehicles
  - Increasing proportion of renewable energy delivered to customers
  - Gradual phase-out of coal generation

“Greening the Fleet” - Coal to Wind in the Midwest

- Retirement of coal and construction of 600 MW of wind
- Estimated customer savings of up to $300 million over 30 years
- Extensive stakeholder outreach conducted

Midwest wind expected to be in rates in Q1 2021

1. CC&N = Certificate of Convenience and Necessity.
Proven, Diversified Power Developer / Producer

Under the Liberty Power brand, APUC owns and operates approximately 1.7 GW of wind, solar, hydroelectric, and thermal energy facilities across North America

Company Highlights

Low Risk, Diverse Operating Base
- Strong cash flows from renewable and clean energy generation sources
- Diversified by modality, energy markets, geography, and technology

High-quality Operating Fleet
- Reliable, proven technology and long-lived assets with low variable operating costs
- Long-term O&M and warranty agreements

Measured Entry into International Infrastructure
- Formation of AAGES\(^1\) joint venture
- Acquisition of equity interest in Atlantica

Facilities

Stable, Secure Off-Take
- Weighted average PPA length of 14 years
- 86% under long-term power purchase contracts
- Contracted asset portfolio ensures stable cash flows

1. AAGES = Abengoa Algonquin Global Energy Solutions.
Financial Policy

Committed to maintaining investment grade credit metrics

• Preserve a capital structure & business mix consistent with mid-investment grade credit metrics
• Actively engage with debt and equity investors

Proactively manage liquidity requirements

• Preserve sufficient headroom under committed long-term credit facilities
• Target to sustain established and diversified banking relationships
• Stagger debt maturities to provide for a predictable and conservative refinancing profile
• Maintain a conservative payout ratio

Enterprise Risk Management and Sustainability

• Keep floating rate exposure to a minimum
• File regular rate reviews to recover cost of debt
**Investment Grade Capital Structure**

*Highly committed to maintaining investment-grade capital structure*

### Senior Debt Platforms

**Liberty Power**
- C$785 M senior unsecured bonds issued
- S&P: BBB / DBRS: BBB (low) / Fitch: BBB

**Liberty Utilities**
- U.S.$1,275 M senior unsecured notes issued
- S&P: BBB / DBRS: BBB (high) / Fitch: BBB

### APUC Subordinated Notes

- US$287 M issued
- S&P: BB+ / Fitch: BB+
- US$1 B of total capacity
- Receives 50% equity credit from S&P and Fitch

### APUC Financial Targets

- S&P / Fitch: Corporate BBB issuer ratings
  - S&P: FFO/Debt > 15%
  - Fitch: FFO Adjusted Leverage < 5.0
- Total Debt to Capitalization < 50%

---

¹ Pro Forma to include recent U.S. offering of $287.5 million, 6.875% Fixed-to-Floating subordinated notes due October 17, 2078
² Includes current and long-term portion of debt per the financial statements.
APUC has delivered consistent growth in its operations and earnings in the Liberty Utilities and Liberty Power businesses.

1. Please see Non-GAAP Financial Measures.
Liquidity

- APUC continues to maintain strong relationships with banking partners
- Liquidity right sized to support increased scale
- Significant capacity remaining in the bank market

Algonquin Power & Utilities Corp.
- C$165 M senior unsecured bank credit facility

Liberty Power Co.
- $500 M senior unsecured bank credit facility
- Matures in 2023

Liberty Utilities Co.
- $500 M senior unsecured bank credit facility
- Matures in 2023

Commitment to maintaining strong credit metrics and a healthy credit structure while growing rate base
Corporate Highlights

- Regulated utility business underpins stable earnings and cash flows
- Long-term contracted cash flows from non-regulated generation
- Long-term growth from commercially secured opportunities

- Proven track record of achieving authorized ROEs
- Diversified operations and constructive regulatory environments
- Strong organic investment program fuels long-term growth

- Commitment to corporate BBB investment grade credit metrics
- Strong capital markets access, liquidity provides financial flexibility
- Conservative dividend payout ratio

- Long-term corporate commitment to sustainability
- Near-term plans to phase out coal and reduce carbon footprint
- Pursuit of water and energy efficiency initiatives

- Extensive experience in regulated utilities and renewable generation
- Growth and sustainability are core to the corporate culture
On October 17, 2018 APUC issued US$287.5 million of 60 (non-call 5) year fixed-to-floating 6.875% subordinated notes (the “Notes”)

- US$250.0 million offering with $37.5 million over-allotment option exercised in full by the underwriters
- At the time of issue, this represented a C$ swapped equivalent yield of approximately 6.450% (trading at 6.81% or approximately 6.35% C$ swapped equivalent\(^1\))
- Proceeds of the offering were used for general corporate purposes, including the repayment of outstanding indebtedness

The Notes were assigned BB+/BB+ ratings by S&P and Fitch, respectively, and receive 50% equity treatment from both rating agencies
