FORWARD-LOOKING STATEMENTS

DISCLAIMER

Certain written and oral statements contained in this presentation and discussion are forward-looking within the meaning of certain securities laws and reflect the views of Algonquin Power & Utilities Corp. (the “Company”) with respect to future events, based upon assumptions relating to, among others, the performance of the Company's assets and the business, financial and regulatory climates in which it operates. These forward looking statements include, among others, statements with respect to the expected performance of the Company, its future plans and its dividends to shareholders.

Since forward-looking statements relate to future events and conditions, by their very nature they require us to make assumptions and involve inherent risks and uncertainties. We caution that although we believe our assumptions are reasonable in the circumstances, these risks and uncertainties give rise to the possibility that our actual results may differ materially from the expectations set out in the forward-looking statements. Material risk factors include those presented in the Company’s annual financial results, the annual information form and most recent quarterly commentary. Given these risks, undue reliance should not be placed on forward-looking statements, which apply only as of their dates. Except as required by law, the Company does not intend to update or revise any forward-looking statements, whether as a result of new information, future developments or otherwise.

NON-GAAP FINANCIAL MEASURES

DISCLAIMER

The terms “adjusted net earnings”, “adjusted earnings before interest, taxes, depreciation and amortization” (“Adjusted EBITDA”), “adjusted funds from operations”, “per share cash provided by adjusted funds from operations”, “per share cash provided by operating activities”, "net energy sales", and "net utility sales", (together the “Financial Measures”) may be used in this presentation. The Financial Measures are not recognized measures under GAAP. There is no standardized measure of the Financial Measures, consequently APUC’s method of calculating these measures may differ from methods used by other companies and therefore may not be comparable to similar measures presented by other companies. A calculation and analysis of the Financial Measures can be found in APUC’s most recent Management Commentary. Per share cash provided by operating activities is not a substitute measure of performance for earnings per share. Amounts represented by per share cash provided by operating activities do not represent amounts available for distribution to shareholders and should be considered in light of various charges and claims against APUC.
## Overview – Algonquin Power & Utilities Corp.

### Clean Electric Power

**Renewable power – high quality assets support earnings growth**

- Since 1988
- Diversified energy markets
- 25% of 2017 EBITDA
- 30% Canada / 70% U.S.
- C$3.1 B in net power assets
  - Net generation capacity of 1.5 GW
  - Long term contracted off-take
- C$2.0 B investment potential over the next five years

### Regulated Electric, Gas and Water Utility

**North American generation, transmission and distribution utility – predictable earnings growth**

- Since 2001
- Diversified state regulation
- 75% of 2017 EBITDA
- 100% U.S.-based
- US$7.1 B in utility assets
- US$3.0 B investment potential over the next five years

#### Distribution

- Electricity, natural gas and water distribution
- 780,000 customers
  - 263,000 electric
  - 335,000 gas
  - 182,000 water

#### Generation

- Net generation capacity over 1.4 GW
- Focus on growing percentage of renewable energy in fleet

#### Transmission

- 1,200 miles of electric transmission
- 100 miles of natural gas transmission
Our Strategic Objective and Financial Expectations

Strategic Objective

To be a top quartile North American integrated utility as measured by:

Safety ♦ Customer Experience ♦ Employee Engagement

Financial Performance ♦ Commitment to Renewable Energy

Financial Goals

- Assets and EBITDA growth: >15% CAGR
- EPS and FFOPS: >10% CAGR
- Dividend growth: 10% CAGR

Avenues for Growth

- Regulated Utilities
- Contracted Power Generation
- Acquisitions
- Organic Growth
- Canada
- United States
- Diversified Modalities
- Local Expansion

Numerous strategies available to ensure predictable, sustainable growth over the short, medium and long-term
North American Focus with Geographic Diversity

- Liberty Utilities
- Liberty Power
- Projects in Development
- Empire Service Territories
Liberty Utilities Offers Predictable Earnings and Growth

REGULATED UTILITY PORTFOLIO

- Stable, predictable earnings, strong cash flow, and return protection
- Diverse portfolio of natural gas, electricity and water distribution utility systems
- Excellent track record of growth
  - Investment in our existing systems
  - Accretive acquisitions in supportive regulatory environments
- Regulated ROEs 9% - 10%

Growth through diversified regulated utility acquisitions, organic investments and rate cases
Liberty Utilities - US$3 B Investment Potential

Regulated Business Mix - EBITDA

### 2016 Actual
- Natural Gas: 51%
- Electricity: 31%
- Water: 18%

### 2021 Estimate
- Natural Gas: 66%
- Electricity: 23%
- Water: 12%
Renewable power generation providing attractive, growing returns

**RENEWABLE ENERGY PORTFOLIO**

- Attractive returns and strong cash flow from renewable and clean energy generation sourced from water, wind, solar, and natural gas
- 88% of generation under long term power purchase contracts with inflation escalators
- Diverse generating fleet by both modality and geography provides stability to production profile
- Target unlevered after-tax IRR of greater than 8%
Liberty Power - C$900 M Commercially Secured

360 MW recently completed:
- ✓ 200 MW Odell Wind Project in Minnesota
  ▪ 20 year PPA with Xcel Energy subsidiary / COD in July 2016
- ✓ 10 MW Bakersfield II Solar Facility Expansion in California
  ▪ 20 year PPA with California electric utility / COD in January 2017
- ✓ 150 MW Deerfield Wind Project in Michigan
  ▪ 20 year PPA with Michigan electric utility / COD in February 2017

150 MW under construction - C$490 M capital cost
- ✓ 75 MW Great Bay Solar Project in Maryland
  ▪ 10 year PPA with U.S. Government / COD expected in 2017
- ✓ 75 MW Amherst Island Wind Project in Ontario
  ▪ 20 year PPA with OPA / COD expected in 2018

201 MW under development - C$410 M capital cost
- ✓ 24 MW Val-Éo Wind Project in Quebec
  ▪ 20 year PPA with Hydro Quebec, community partnership / COD expected in 2018
- ✓ 177 MW Chaplin-Blue Hill Wind Project in Saskatchewan
  ▪ 25 year PPA with SaskPower / COD expected in 2019/2020
Safe Harbor Strategy - C$1.5 B Investment Potential

- Safe Harbor strategy secures 2016 PTC rates for future wind development
- Four-year development window
- Opportunity exists to deploy Safe Harbor turbines within both our Liberty Utilities and Liberty Power business groups

Empire - 2016
Robust growth model

- Earnings/cash flow growth supports targeted dividend increase of 10% per year
- AQN is part of the S&P/TSX Canadian Dividend Aristocrats Index
- AQN listed on NYSE, improves access to US capital markets

Diversified, conservative business platform

- Long term investment grade BBB fixed rate debt financing
- Large proportion of earnings from regulated utility operations
- Reduced commodity price exposure through inflation indexed long term PPAs

US$0.4659 / C$0.6132

Annual common share dividend

Room for investment in growth

Room to grow the dividend by 10% annually

1. Reflects 10% dividend increase declared January 16, 2017. Dividend declared in USD. CAD equivalent based on exchange rate on declaration date of the Q1 2017 dividend.
2017 – 2021 C$6.3 B Capital Program

Sources of Capital

- C$6.3 B pipeline of investment opportunities
- High degree of financial flexibility to execute on growth plans
  - Relatively low payout ratio provides significant internally generated cash flows
  - DRIP program and tax equity provide additional sources of capital
  - Equity rich capital structure allows for additional leverage

Uses of Capital

- Liberty Utilities
- Liberty Power

- Free cash flow
- Debt
- Tax equity
- DRIP
- Common equity
Focus for 2017

- Deliver our 2017 capital programs on-time and on-budget

- Liberty Power – Expand the renewable energy growth opportunity set
  - **150 MW of Development:** Great Bay Solar (75 MW) and Amherst Island Wind (75 MW)
  - **Recently Commissioned:** Deerfield Wind (150 MW) and Bakersfield II Solar (10 MW)

- Liberty Utilities – Focus on new investment and earned ROE
  - Multiple capital programs underway, including Greening the Empire power fleet
  - Focus on reducing gap between authorized and earned ROE throughout LU
  - U.S.$35.6 million in pending rate cases across seven jurisdictions in next 12 months
  - Recently commissioned Luning Solar (50 MW)
Strong Track Record of Performance

Delivered Solid Results in Q1

- Commissioned 210 MW of net generation capacity
- Over U.S. $13 million in recently completed rate cases
- Successful completion and integration of Empire acquisition
  - 218,000 new water, gas, and electric utility customers
  - 1,400 MW of regulated electrical power generation

Resource fluctuation managed through diversification

- 10-year avg. production of >98% of forecast production targets
- Statistically predictable natural resources drive electricity production
- Production targets are based on long-term average wind, hydrology, and solar resources

Other risk exposures actively managed to ensure stability of cash flows over the long term

- Minimal counterparty risk
- Minimal refinancing risk
- Minimal floating rate debt risk
- Minimal commodity risk

1. Proportions set as of March 31, 2017
Algonquin Power & Utilities Corp.: Why Invest?

- **Earnings & Cash Flows**
  - Long-term contracted cash flows and regulated utility earnings
  - Significant forecast growth from commercially secured pipeline

- **Dividend Growth**
  - Annual dividend increases for seven consecutive years
  - Targeting 10% increase annually

- **Development Program**
  - Line-of-sight on ~C$6.3 B\(^1\) of growth over next five years
  - Maintaining business and technology mix

- **Risk Management**
  - Investment grade capital structure
  - Dedicated Enterprise Risk Management and Internal Audit functions

- **Management Team**
  - Over 25 years of experience in power generation development and utility expertise
  - Entrepreneurial roots
