Q3 2019
EARNINGS CONFERENCE CALL
November 8, 2019
10:00 a.m. ET
Algonquin Power & Utilities Corp.
DISCLAIMERS

FORWARD-LOOKING STATEMENTS

Certain written and oral statements contained or made in this presentation and discussion are forward-looking within the meaning of applicable securities laws and reflect the views of Algonquin Power & Utilities Corp. ("APUC" or the "Company") with respect to future events, based upon assumptions relating to, among others, the performance of the Company’s assets and the business, financial and regulatory climates in which it operates. These forward-looking statements include, among others, statements with respect to the expected performance of the Company, its development projects, ongoing and planned acquisitions, projects and initiatives, including expectations regarding costs, financing, results, and completion and closing dates, its future plans and its dividends to shareholders.

Since forward-looking statements relate to future events and conditions, by their very nature they require us to make assumptions and involve inherent risks and uncertainties. We caution that although we believe our assumptions are reasonable in the circumstances, these risks and uncertainties give rise to the possibility that our actual results may differ materially from the expectations set out in the forward-looking statements. Material risk factors include those presented in the Company's most recent annual and interim management discussion & analysis and annual information form. Given these risks, undue reliance should not be placed on forward-looking statements, which apply only as of their dates. Except as required by law, the Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future developments or otherwise.

NON-GAAP FINANCIAL MEASURES

The terms “adjusted net earnings”, “adjusted net earnings per share” ("Adjusted EPS"), “earnings before interest, taxes, depreciation and amortization” ("EBITDA"), “adjusted EBITDA”, “adjusted funds from operations”, “per share cash provided by adjusted funds from operations” ("AFFO"), “per share cash provided by operating activities”, “net energy sales”, and "net utility sales" (together the “Financial Measures”) may be used in this presentation. The Financial Measures are not recognized measures under GAAP. There is no standardized measure of the Financial Measures, consequently APUC’s method of calculating these measures may differ from methods used by other companies and therefore they may not be comparable to similar measures presented by other companies. For a reconciliation of the Financial Measures used in the presentation to their corresponding GAAP measures, please see the Appendix - Reconciliation of non-GAAP Financial Measures beginning on page 12 of this presentation or APUC’s most recent management discussion & analysis. Per share cash provided by operating activities is not a substitute measure of performance for earnings per share. Amounts represented by per share cash provided by operating activities do not represent amounts available for distribution to shareholders and should be considered in light of various charges and claims against APUC.

All dollar amounts presented in U.S. $ unless otherwise noted

### NON-GAAP FINANCIAL MEASURES

**Reconciliation of Adjusted EBITDA to Net Earnings**

The following table is derived from and should be read in conjunction with the consolidated statement of operations. This supplementary disclosure is intended to more fully explain disclosures related to Adjusted EBITDA and provides additional information related to the operating performance of APUC. Investors are cautioned that this measure should not be construed as an alternative to U.S. GAAP consolidated net earnings.

1. HLBV represents the value of net tax attributes earned during the period primarily from electricity generated by certain U.S. wind power and U.S. solar generation facilities. HLBV earned in the three and nine months ended September 30, 2019 amounted to $12.0 million and $49.0 million as compared to $5.5 million and $86.8 million during the same period in 2018. In the first quarter of 2018, a one-time acceleration of HLBV income in the amount of $65.9 million was recorded as a result of U.S. Tax Reform. Excluding the one-time acceleration of HLBV due to U.S. Tax Reform, Adjusted EBITDA increased by $58.9 million year over year.
NON-GAAP FINANCIAL MEASURES

Reconciliation of Adjusted Net Earnings to Net Earnings

The following table is derived from and should be read in conjunction with the consolidated statement of operations. This supplementary disclosure is intended to more fully explain disclosures related to Adjusted Net Earnings and provides additional information related to the operating performance of APUC. Investors are cautioned that this measure should not be construed as an alternative to consolidated net earnings in accordance with U.S. GAAP.

The following table shows the reconciliation of net earnings to Adjusted Net Earnings exclusive of these items:

<table>
