FORWARD-LOOKING STATEMENTS

Certain written and oral statements contained in this presentation and discussion are forward-looking within the meaning of certain securities laws and reflect the views of Algonquin Power & Utilities Corp. (the “Company”) with respect to future events, based upon assumptions relating to, among others, the performance of the Company’s assets and the business, financial and regulatory climates in which it operates. These forward looking statements include, among others, statements with respect to the expected performance of the Company, its future plans and its dividends to shareholders.

Since forward-looking statements relate to future events and conditions, by their very nature they require us to make assumptions and involve inherent risks and uncertainties. We caution that although we believe our assumptions are reasonable in the circumstances, these risks and uncertainties give rise to the possibility that our actual results may differ materially from the expectations set out in the forward-looking statements. Material risk factors include those presented in the Company’s annual financial results, the annual information form and most recent quarterly commentary. Given these risks, undue reliance should not be placed on forward-looking statements, which apply only as of their dates. Except as required by law, the Company does not intend to update or revise any forward-looking statements, whether as a result of new information, future developments or otherwise.

NON-GAAP FINANCIAL MEASURES

The terms “adjusted net earnings”, “adjusted earnings before interest, taxes, depreciation and amortization” (“Adjusted EBITDA”), “adjusted funds from operations”, “per share cash provided by adjusted funds from operations”, “per share cash provided by operating activities”, “net energy sales”, and "net utility sales", (together the “Financial Measures”) may be used in this presentation. The Financial Measures are not recognized measures under GAAP. There is no standardized measure of the Financial Measures, consequently APUC’s method of calculating these measures may differ from methods used by other companies and therefore may not be comparable to similar measures presented by other companies. A calculation and analysis of the Financial Measures can be found in APUC’s most recent Management Commentary. Per share cash provided by operating activities is not a substitute measure of performance for earnings per share. Amounts represented by per share cash provided by operating activities do not represent amounts available for distribution to shareholders and should be considered in light of various charges and claims against APUC.
Overview – Algonquin Power & Utilities Corp.

• Independent power development
• $3.1 B in power assets
• Diversified by geography and modality
• Average PPA length - 15 years

• Company founded in 1988
• International development will diversify operations and growth
  • Atlantica Investment\(^1\)
  • AAGES Joint Venture\(^1\)

• Regulated utility, 100% US-based
• $7.3 B in utility assets
• Diversified by regulatory jurisdiction and modality

**Multiple opportunities for growth within 5-year, $7.7 B capital program**

1. Transactions related to the Atlantica Yield acquisition and AAGES JV are expected to close in Q1, 2018.
Our Strategic Objective and Financial Expectations

Strategic Objective
To be a top quartile integrated utility as measured by:

Safety ♦ Customer Experience ♦ Employee Engagement ♦ Financial Performance

Commitment to Renewable Energy ♦ Best Practices in ESG & Sustainability

Avenues for Growth

- Regulated Utilities
- Acquisitions
- Canada / United States
- Diversified Modalities
- Contracted Power Generation
- Organic Growth
- International Markets
- Local Expansion

Multi-strategy approach to delivering predictable, sustainable growth over the short, medium and long-term
Liberty Utilities Offers Predictable Earnings and Growth

REGULATED UTILITY PORTFOLIO

- Stable, predictable earnings and return protection across diverse customer base
  - 265,000 electric / 337,000 gas / 160,000 water

- Portfolio spans multiple franchise areas
  - Enables effective capital deployment

- Diversified regulatory jurisdictions
  - Achieved authorized ROEs

- Excellent track record of growth
  - Achieved 5-year CAGR of over 25%
  - Accretive acquisitions in supportive regulatory environments

Growth through diversified regulated utility acquisitions, organic investments and rate cases
### Investment Opportunities

<table>
<thead>
<tr>
<th>Investment Opportunities</th>
<th>EBITDA Impact</th>
<th>Acquisitions and CapEx</th>
</tr>
</thead>
</table>
| Organic Investments in Utility Rate Base | • US$44.9 M in pending rate requests in 2018  
• New rate requests expected for all of our electric, gas, and water utilities | • Pipeline replacement, reliability improvements  
• Organic capex of ~US$1.5 B forecasted through 2022 |
| “Greening the Fleet” | • Regulatory filings in progress | • ~US$1.6 B through 2022  
• St. Lawrence Gas - US$70 M / 16,000 customers |
| Accretive Acquisitions | | • Granite Bridge – US$320-360 M investment project |
| Infrastructure Expansion | | |

---

**Regulated Business Mix - EBITDA**

2017 Actual:
- Natural Gas: 25%
- Electricity: 62%
- Water: 13%

2022 Estimate:
- Natural Gas: 11%
- Electricity: 67%
- Water: 23%

**“Greening the Fleet” initiative contributes to electricity growth through 2022**
Renewable power generation provides attractive, growing returns

**RENEWABLE ENERGY PORTFOLIO**

- Attractive returns and strong cash flow from renewable and clean energy generation sourced from water, wind, solar, and natural gas
- Diverse generating fleet by both modality and geography provides stable production profile
- 87% of generation under long term power purchase contracts with inflation escalators
- Targeting unlevered after-tax IRRs of greater than 8%

- 38 renewable & clean energy facilities
- 6 provinces and 8 states
- 1,500 MW net installed capacity
- 15 years average PPA length

1. Production-weighted average as at Q4, 2017.
Liberty Power - C$900 M Commercially Secured

150 MW under construction - C$489 - 538 M capital cost

- **75 MW Great Bay Solar Project in Maryland**
  - 10 year PPA with U.S. Government
  - COD expected in early 2018

- **75 MW Amherst Island Wind Project in Ontario**
  - 20 year PPA with OPA
  - COD expected in 2018

211 MW under development - C$400 - 451 M capital cost

- **24 MW Val-Éo Wind Project in Quebec**
  - 20 year PPA with Hydro Quebec
  - COD expected in 2018

- **177 MW Chaplin-Blue Hill Wind Project in Saskatchewan**
  - 25 year PPA with SaskPower
  - COD expected in 2019/2020

- **10 MW Turquoise Solar Project in Nevada**
  - To be included in CalPeco rate base
  - COD expected in 2018
Greening the Fleet Strategy - US$1.6 B investment potential

Fleet greening, microgrid offer capital investment opportunities

- Dramatic decline in cost of renewables spurring growth
  - Favorable economics for renewable power create optimal conditions for renewal of generating fleet while maintaining customer rates

- Leverage APUC skillset
  - Experienced renewable energy development team supports “fleet greening” efforts within Empire

- Strategy driven by customer demand and economics
  - California – Utility-scale solar (Luning and Turquoise)
  - Midwest – Community solar, up to 800 MW of wind (IRP filed in October 2017)
  - Investment opportunity of US$1.6 B

Coal (variable cost): US$28 – 35 per MWh

Wind (all-in cost\(^1\)): US$18 – 28 per MWh

Favorable all-in cost of renewables is accelerating the shift away from coal

1. Located in Midwest U.S., safe harbor for 100% PTCs.
Strategic Investment in Atlantica Yield¹

- To acquire 25% interest in Atlantica from Abengoa for a total of US$608 M
- Attractively-priced portfolio of high-quality, international operating assets
- Material dividend growth expected with clearing of sponsor uncertainty
- Near-term investment in growth opportunities – use of corporate cash
- Future with Abengoa drop down of AAGES projects through new ROFO

AAGES Venture¹

- Global development platform for clean energy, transmission, and water infrastructure
- Strategic, measured approach to international development for APUC
- Access to new modalities – energy storage, desalination, and concentrating solar
- Strongly aligned with APUC’s criteria for viable global investment
- Near-term construction opportunities – A3T (co-gen) and ATN3 (transmission)

Complementary initiatives represent measured first steps into key global markets

¹. Transactions related to the Atlantica Yield acquisition and AAGES JV are expected to close in Q1, 2018.
1. Charts include the pending Atlantica Yield acquisition and AAGES JV, which are expected to close in Q1, 2018.
**Long-Term Growth Supports Sustainable Dividend**

**US$0.4659 / C$0.5968**
Annual common share dividend\(^1\)

- **Earnings per share growth of >10% supports targeted annual dividend increase**
- **AQN is part of the S&P/TSX Canadian Dividend Aristocrats Index**
- **AQN's listing on NYSE further strengthens access to U.S. capital markets**

- **Long term investment grade BBB fixed rate debt financing**
- **Large proportion of earnings from regulated utility operations**
- **Reduced commodity price exposure through inflation indexed long term PPAs**

---

1. Dividend declared in USD. CAD equivalent based on exchange rate on the day before the declaration date of the Q1, 2018 dividend.
2. Includes the pending Atlantica Yield and AAGES transactions, which are expected to close in Q1, 2018.
Robust Capital Program

Sources of Capital

- C$7.7 B pipeline of investment opportunities for execution within 2018 - 2022 timeframe
- High degree of financial flexibility to execute on growth plans
  - Relatively low payout ratio provides significant internally generated cash flows
  - Premium dividend reinvestment program and tax equity provide additional sources of capital

Uses of Capital

1. Charts and investment amount include the pending Atlantica Yield acquisition and AAGES JV, which are expected to close in Q1, 2018.
U.S. Tax Reform - Overview of the Effects

**Impacts within APUC’s normal variability**
- Neutral to slight positive on EPS, 2 - 3% negative to 2018 EBITDA
- Impacts are within normal variability of our business cycle

**Lower corporate taxes are generally constructive**
- Revaluation of deferred income taxes - one-time non-cash charge of $22.4 M
- Liberty Utilities – Neutral to EPS, slight impact to FFO in 2018
- Liberty Power – Neutral to FFO in short-term, positive impact in long-run

**Other attributes are a net benefit**
- Interest deductibility - Changes have no impact due to our current debt structure
- Eliminated bonus depreciation improves utility rate base growth by 50 bps

**Renewables opportunities unaffected**
- PTC components essentially unchanged
- Empire “Greening the Fleet” - Savings preserved despite tax reform

**Capital access and credit metrics remain intact**
- Tax equity needs satisfied internally, or through investment by 3rd parties
- Ability to improve credit metrics over time expected to continue

**U.S Tax Reform allows opportunity to reduce customer rates and accelerate investment in system improvements**
Strong Access to Debt Capital Markets

Liberty Power Bond Platform
- Canadian public style bond platform
- C$785 M senior unsecured bonds issued
- January 2017 issued C$300 M, 4.1%, 10 yrs
- Investment-grade credit ratings:
  - S&P: BBB / DBRS: BBB (low)

Liberty Utilities Bond Platform
- U.S. private placement market
- US$1,275 M senior unsecured bonds issued
- March 2017 issued US$750 M, 3.6%, 15 yrs
- Investment-grade credit ratings:
  - S&P: BBB / DBRS: BBB (high)

Highly committed to maintaining investment-grade capital structure

Algonquin Power & Utilities Corp.: Why Invest?

- **Earnings & Cash Flows**
  - Long-term contracted cash flows and regulated utility earnings
  - Significant forecast growth from commercially secured pipeline

- **Sustainable Growth in Dividend**
  - Annual dividend increases for seven consecutive years
  - Targeting 10% increase annually

- **Robust Development Program**
  - Line-of-sight on ~C$7.7 B\(^1\) of growth over next five years
  - New investment potential through Atlantica/AAGES of ~$1.6 B\(^2\)
  - Maintaining business and technology mix

- **Enterprise-wide Focus on Risk Management**
  - Investment grade capital structure
  - Dedicated Enterprise Risk Management and Internal Audit functions

- **Management Team**
  - Over 25 years of experience in power generation development and utility expertise
  - Entrepreneurial roots

---

Delivered Solid Results in 2017

- Formation of AAGES JV and Atlantica investment\(^1\)
- Successful completion and integration of Empire:
  - 221,000 water, gas, and electric customers / 1,400 MW of regulated electrical power generation
- Continuation of growth through acquisition:
  - St. Lawrence Gas - New York / 16,000 customers
  - City of Perris Water System – California / 4,000 customers
- Commissioned 210 MW of net generation capacity (LP – 160 MW, LU – 50 MW)
- Announced Granite Bridge pipeline project
- Successful rate case outcomes totaling US$20.4 M of annualized revenue

</tbody>
</table>

Resource fluctuation managed through diversification

- 10-year avg. production of ~97% of forecast production targets
- Statistically predictable natural resources drive electricity production
- Production targets are based on long-term average wind, hydrology, and solar resources

Other risk exposures actively managed to ensure stability of cash flows over the long term

- Minimal counterparty risk
- Minimal refinancing risk
- Minimal floating rate debt risk
- Minimal commodity risk

1. Proportions set as of December 31, 2017
**Favourable Tax Positioning**

**Efficient corporate tax structure**
- Maximum flexibility for cross border tax planning
- Maximum flexibility between regulated and non-regulated businesses

**C$4.0 B of tax attributes available**
- APUC expects to begin paying cash taxes in 2021
